Dear Sirs:

Our proposal to the City of Elgin for their street lighting is as follows:

Remove the following:

- 1 - 1ML Incandescent Street Light
- 79 - 2500L Incandescent Street Lights
- 22 - 6000L Incandescent Street Lights
- 1 - 4000L Incandescent Street Light

The Company proposes to install new mast arms and poles where needed and install a complete mercury vapor system consisting of 110 - 7,000 Lumen and 13 - 20,000 Lumen Mercury Vapor Street Lights.

Yours truly,

Tom Bean
